

HAITIAN SUMMER INSTITUTE
Haitian Creole Courses via Synchronous Distance Learning
June 21 - July 30, 2021 (6 weeks)

Program Overview:

Now entering its 24th year, the Haitian Summer Institute is a six-week program designed for anyone interested in acquiring basic conversational proficiency in Haitian Creole and also for those students who wish to continue their Haitian Creole Language training at the intermediate and advanced levels. Courses will also incorporate interdisciplinary academic virtual guest lectures in support of course learning objectives. In compliance with FLAS requirements, the program offers 150 hours of in-class instruction in the target language over a period of 6 weeks. Participants may enter at the beginning, or intermediate levels. Daily classes combine language immersion activities, lectures, conversations, guest speakers, documentaries and virtual excursions.

Virtual Instruction:

In response to various students' inability to travel and in support of current federal, state and local recommendations related to social distancing, the 2021 program will be taught fully online through synchronous distance learning via Zoom coupled with Canvas for all associated class management needs, including course content delivery, assignment submissions, assessment, and guest lectures. Classes will be held Monday through Friday and include a morning (9am-12pm) and an afternoon (1pm-3pm) session.

Haitian Summer Institute instructors and administrators' efforts to deliver a top quality virtual program are reinforced by [FIU Online's](#) Instructional Design Manager, Lergia Olivo, who is collaborating with LACC to provide an additional layer of oversight to guarantee high academic standards and maintain the rigor of the Institute in its new, fully virtual modality. Lergia Olivo is working closely with the Institute's instructors to ensure best practices for pedagogy in an online environment, effective instructional strategies for synchronous teaching and optimal learning outcomes for virtual students.
